YOUR GUARANTEES

THE ARGOS PROMISE

The following guarantees do not affect your statutory rights. If you change your mind and decide that a product you have bought does not meet your needs, regular returns we offer you the opportunity of returning within 30 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unused condition, with the original wrapping and your receipt. Please note this guarantee does not apply to earnings for periodicals.

IF SOMETHING DEVELOPS A FAULT

Should a fault develop and the product is returned within 30 days of purchase, we will be glad to offer you an exchange or a full refund. If a fault develops and the product is returned to a showroom more than 30 days after purchase and within the manufacturer's guarantee period, we will provide a free-of-charge repair facility. And don't forget that we can arrange to have many electrical appliances serviced in your home. Let Argos take care of it.

NEW EXTENDED GUARANTEES

In addition to the above we now offer even greater peace of mind on selected electrical goods - with our 5-year Guarantee Scheme. For a modest single payment, you can extend the manufacturer's guarantee up to 5 years - and beyond. Why not pick up a leaflet in store or ask one of our staff for details?

DIAMOND
Diamond is the hardest substance known to man. It is also considered one of the most beautiful. The most popular cut of a diamond is known as the brilliant cut, each diamond having 57 facets to give maximum reflection and refraction of light and brilliance. A cut of 1 carat or more.

Diamonds are weighed by the carat. 100 points = 1 carat.

All quartz watches are dependent on batteries for their power source.

As a courtesy, customers returning watches which applied to them will be charged for the fitting of replacements.

Our suppliers adopt a policy of continuous improvement. Hence there may be, during the life of the catalogue, minor variations in models, specifications and colors.

Watches that are designated splash proof are suitable for wearing while water is being splashed but NOT under any pressure in swimming and showering.
